Vienna Biocenter Core Facilities | Research & Scientific Services

a basic introduction to your research infrastructures (RI)

Daniele Soroldoni

UBB | Postdoc Symposium, 08.06.2022

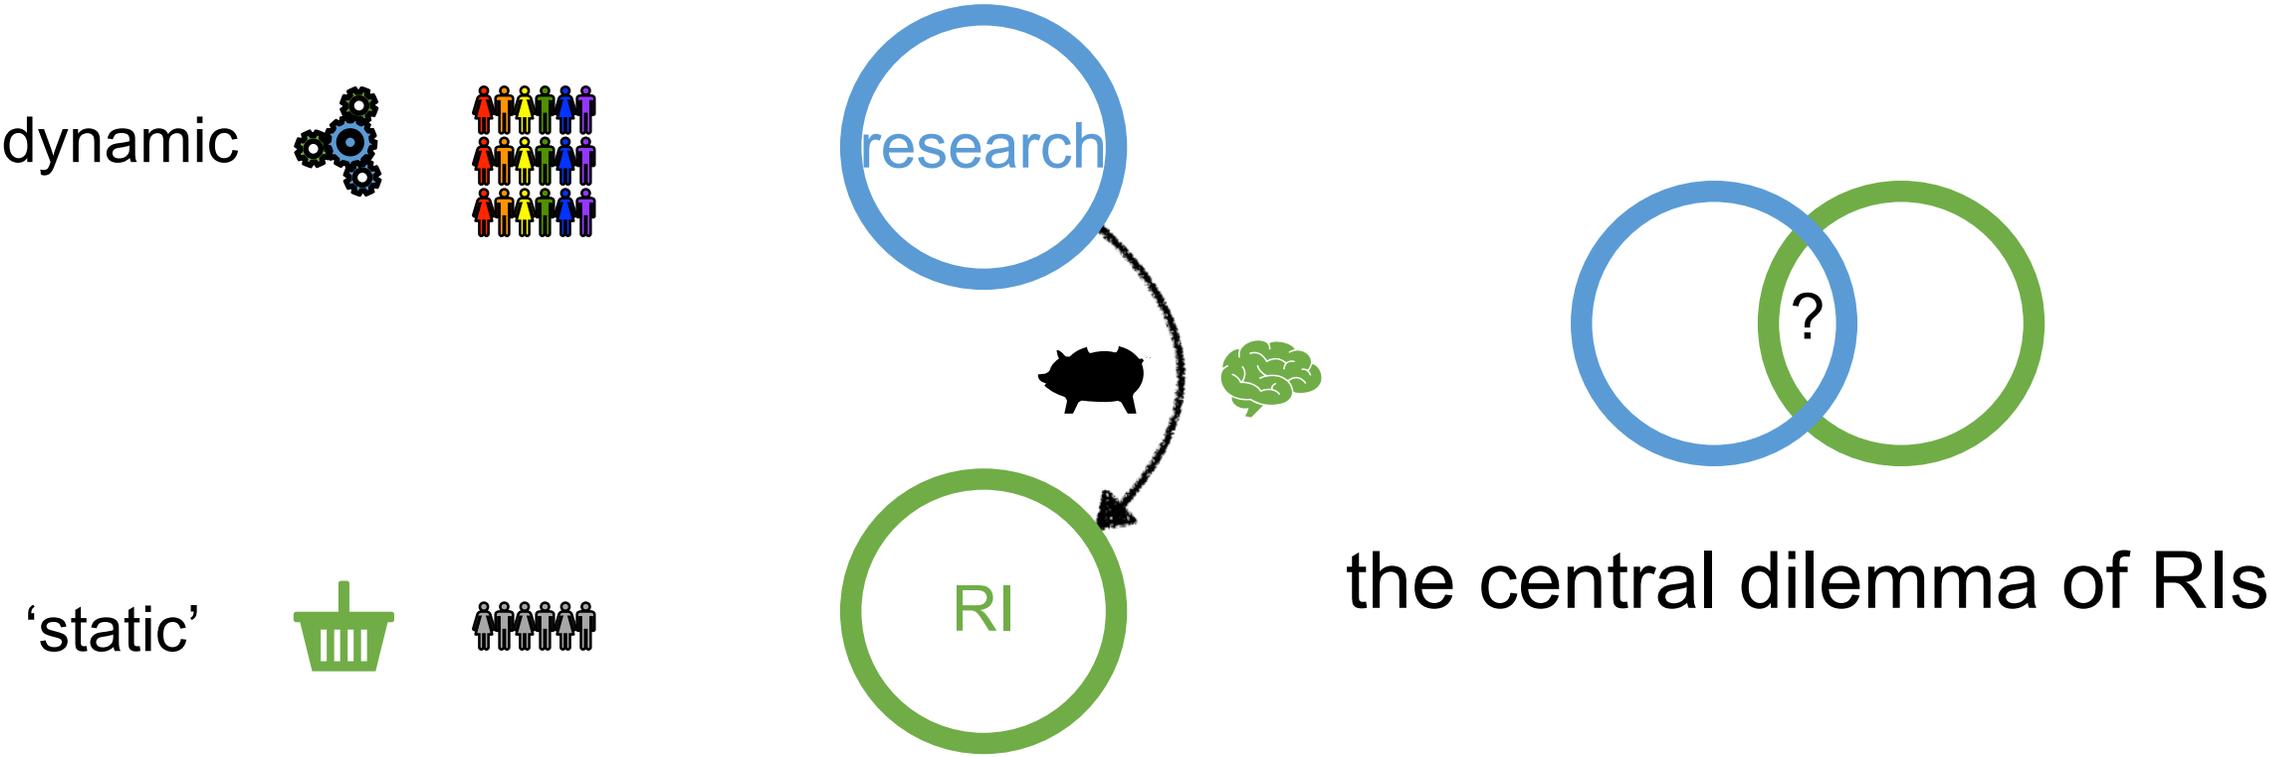

RIs are an integral part of the ecosystem

RI as interdisciplinary service provider

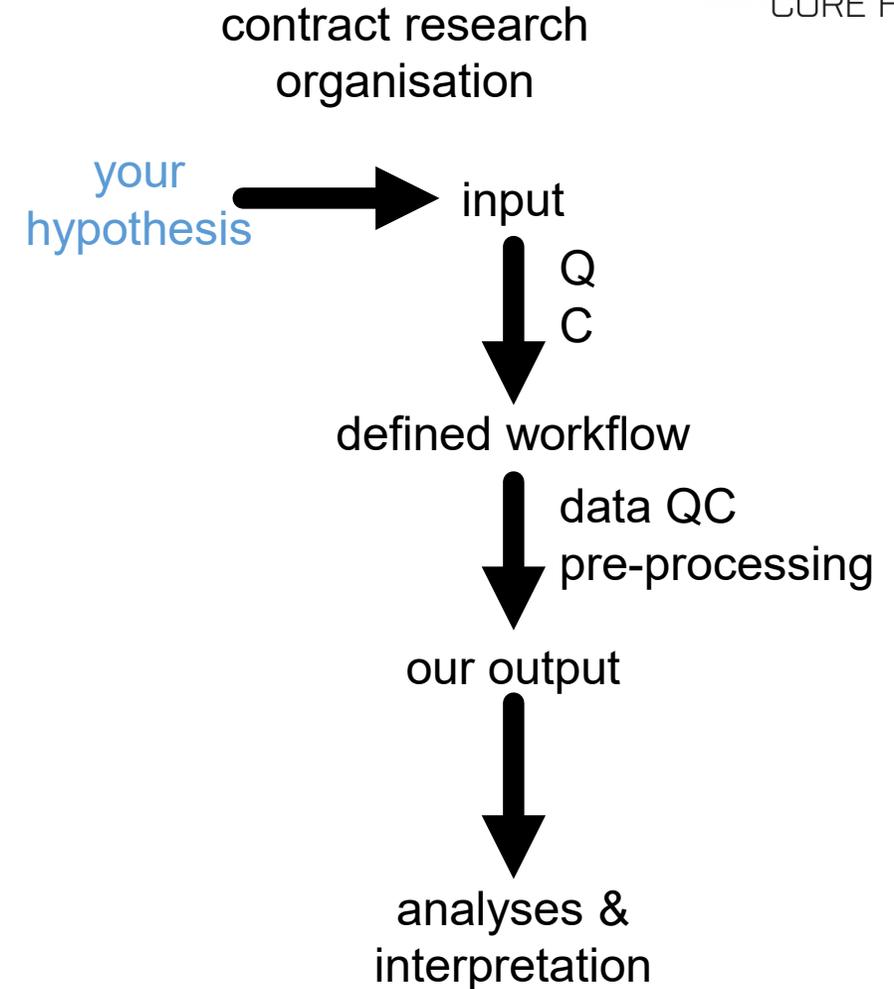

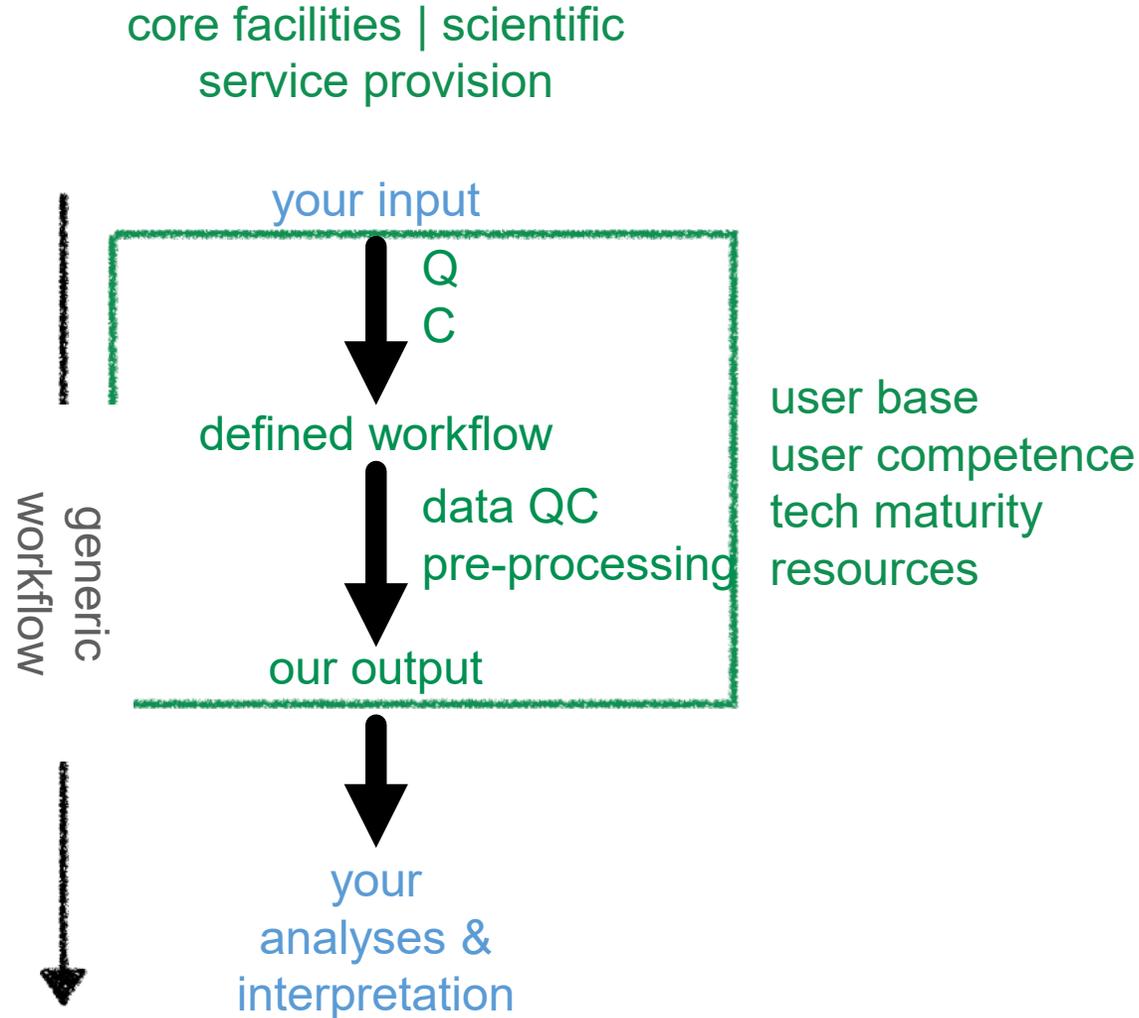

RI as expertise & innovation hub

RI as employer

RIs evolved to capitalise on economies-of-scale

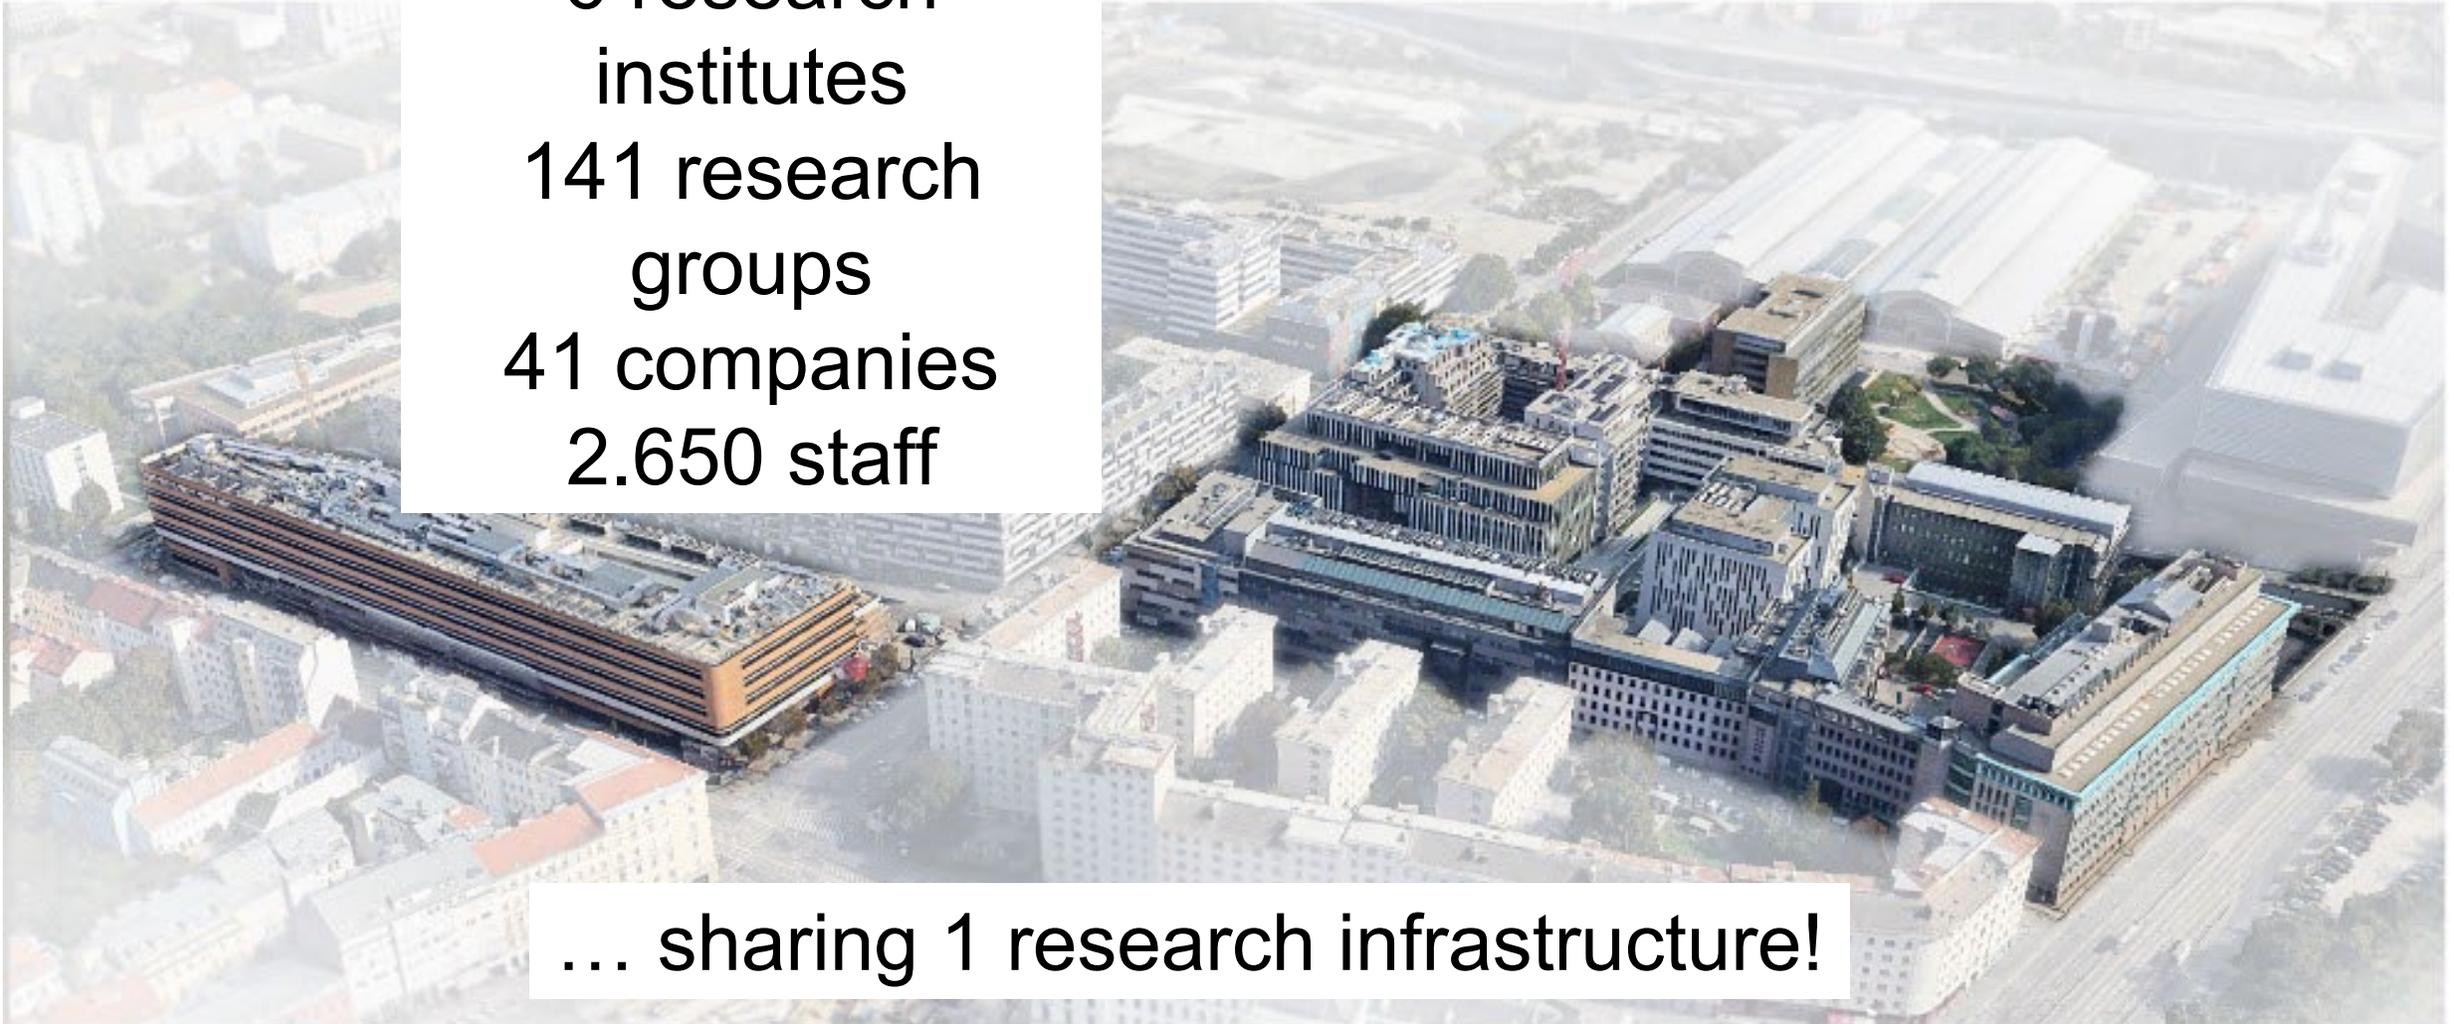

RIs differ from contract research organisations

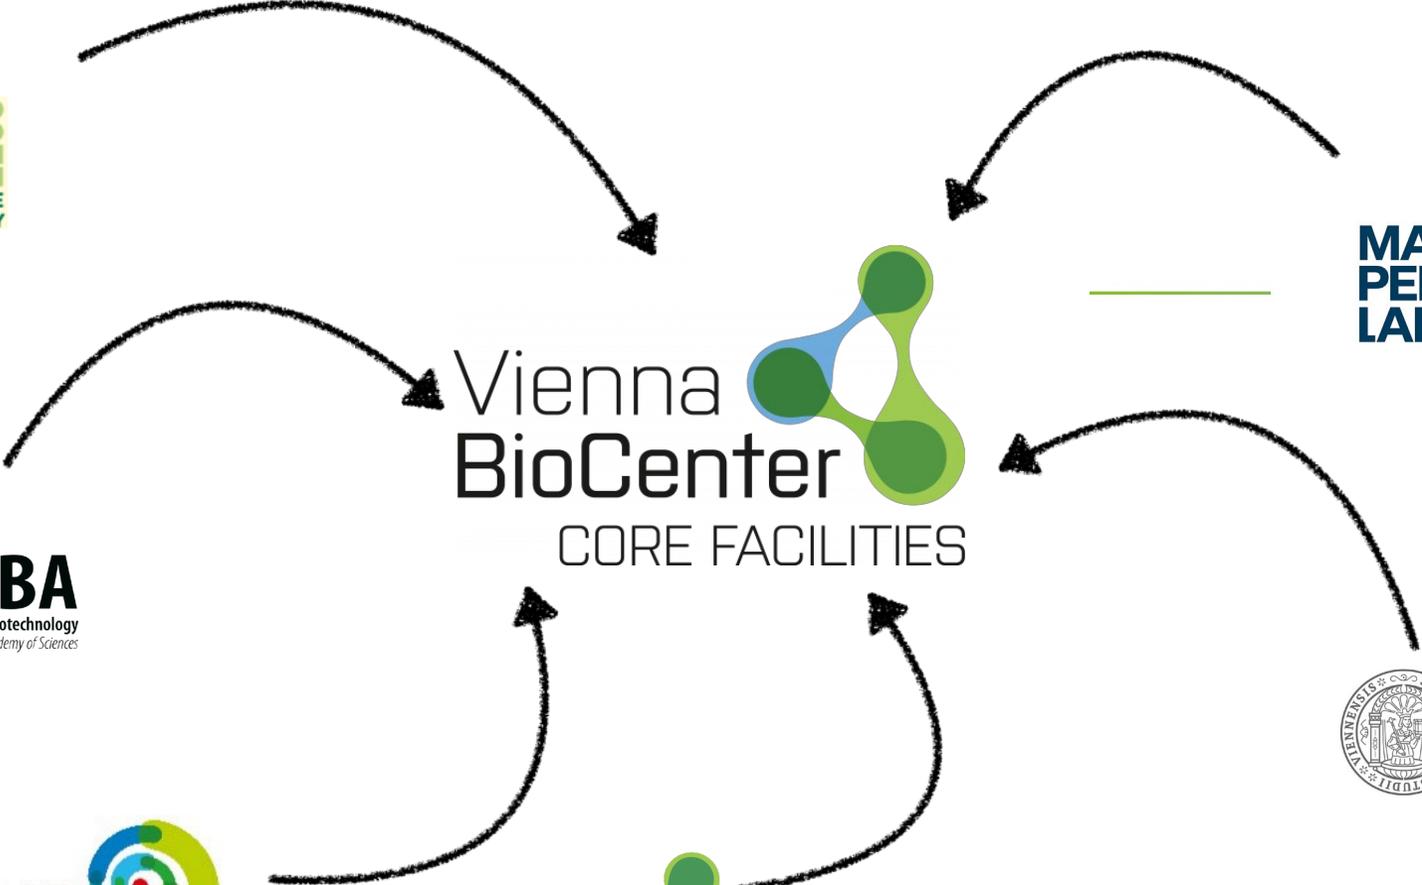

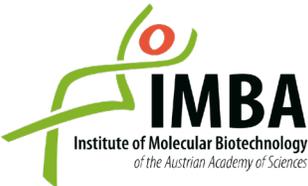

the VBCF serves a continuously growing user base

6 research
institutes
141 research
groups
41 companies
2.650 staff

... sharing 1 research infrastructure!

the VBCF has a shared ownership structure

can this actually work?

the VBC framework promotes transparency

funding contract
KPIs
equal access

company
national laws
full-cost accounting

11 CFs
2 expertise hubs
1 CCC

3 access models

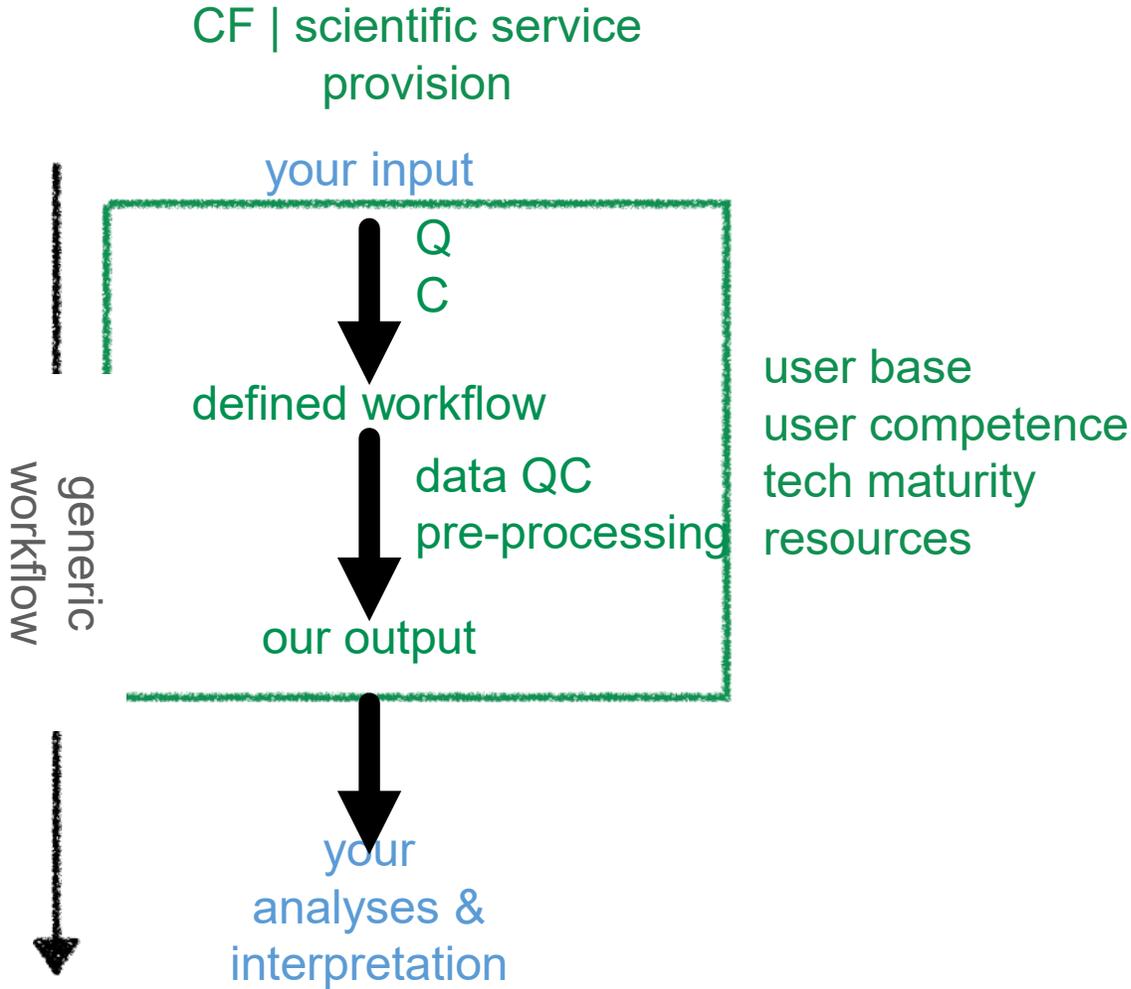

fee-for-service
2 pricing models

we are open to everyone but not for free

we lose money in a controlled manner

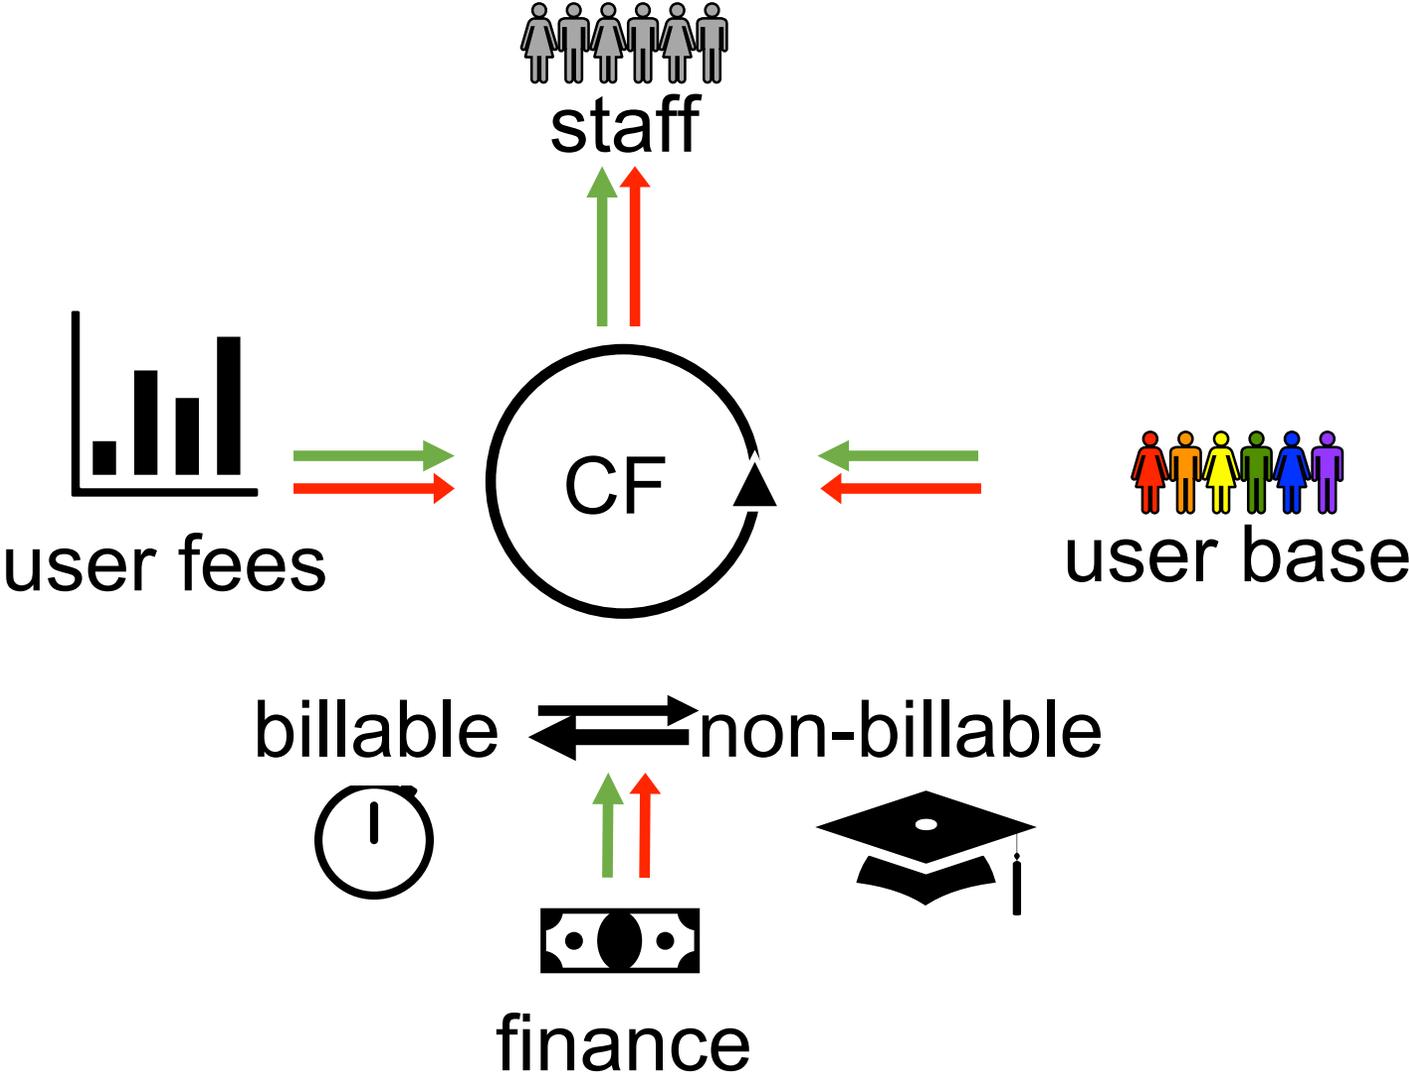

you only pay for direct costs consumables personnel time

you do not pay for consultancy depreciation idle time

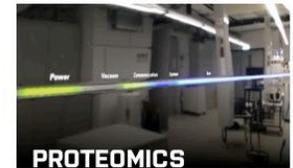

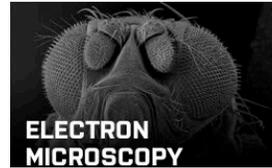

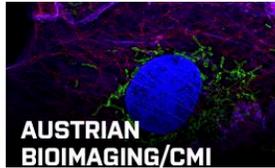

your user fees cover a small fraction of our full cost

the VBC model scales to its utilisation

many services | single point of entry

Our Scientific Facilities

Our Community Services (VBC members only)

<https://www.viennabiocenter.org/facilities/>

we are a unique employer

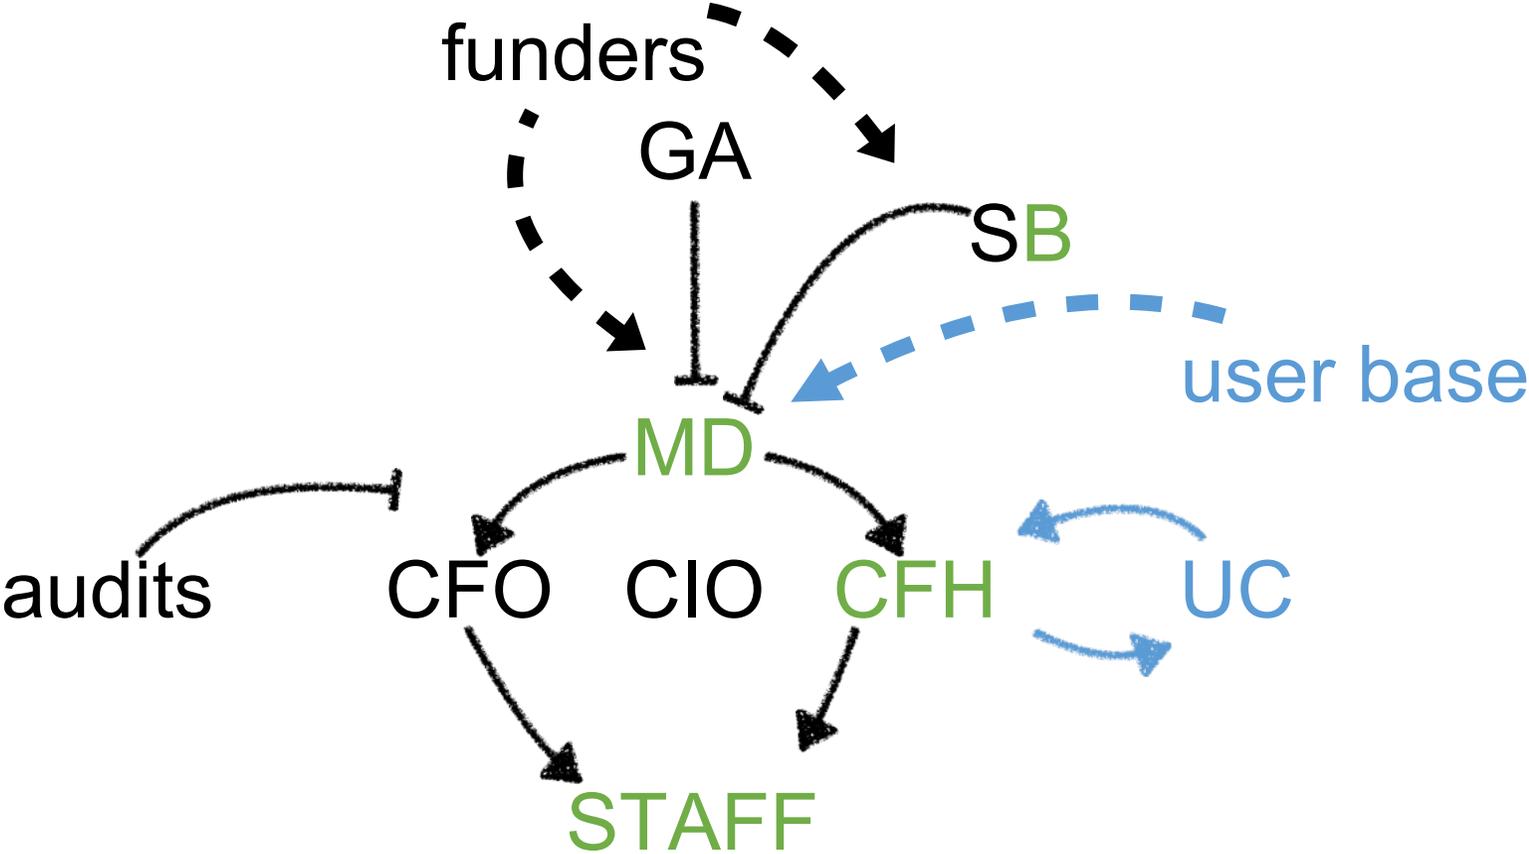

academia

VBCF

non-subsidised world

main purpose	make discoveries individual research project	aid discoveries service	profit set research project
currency	publications indices	sc. quality rigour fee - for - service	sales
mode of action	individual	redundant team	matrix
job security	unclear	permanent	volatile
income	ill-defined	moderate	high

we offer a unique work environment

THANK YOU!

Research Services: Overview of Support Services for Postdocs

DLE Research Services and Career Development

Who are we?

© Universität Wien Barbara Mair

Funding support

How can we help you?

- Information on various national and international funding schemes
- Support in filing an application or with project planning (particularly budgeting)
- Dedicated proposal checks and advice
- Contract negotiations for third party funded projects, MTAs, CDAs, NDAs

Events & Training?

- [FFG Bridge & FFG Basisprogramm](#) (in German) on June 14th
- [ERC Starting Grant online workshop](#) (in English) on June 29th
- National and International Funding Opportunities for Postdocs – TBC 1-2 x per semester
- [Trainings & Events](#) by FSNF

Interested?

- EU & International programmes: eu.fsib@univie.ac.at
- National funding & DACH area: foerderungen.national@univie.ac.at
- Cooperations with industry and society: wirtschaft.kooperation@univie.ac.at
- Life Sciences-Faculty support: herbert.gasser@univie.ac.at

Main Funding Schemes for Postdocs

- [Marie Curie Postdoctoral Fellowships \(MSCA PFs\)](#): Career development through research & training abroad. Fellows must be max. 8 years post PhD.
- [ERC Starting Grants](#): for excellent PIs 2-7 years from the award of first PhD and their team – 1.5million for 5 years to deliver ground breaking, high risk/high gain projects in all fields of research
- [FWF Esprit](#): Career development for national and international postdocs at Austrian research institutions; max. up to 5 years post PhD
- [FWF Schrödinger Fellowship](#): Outgoing fellowship incl. return phase
- [FWF Start Programme](#): outstanding researchers 2-8 years post PhD – up to 1.2 Mio. for 6 years to build up or consolidate a research group

Moritz Schlick early career programme

- New UNIVIE programme for postdocs from the University of Vienna and outside with a PhD from 2020 or later, who show high potential for an academic career
- Benefits for a Moritz Schlick Postdoc:
 - 4 + 2 years postdoc position incl. 50 k financial contribution (+ additional 50 k in experimental disciplines/25 in computational disciplines)
 - opportunity to go on a sabbatical
 - specific training and mentoring to foster the scientific career and e.g. successfully apply for an excellence-grant (ERC, FWF Start)
- Moritz Schlick positions for the 2022 call will be advertised in September 2022 with a deadline on October 31st, 2022
- Find more information [here](#)

RAPHAELA FREIDL
Life Sciences

MARCO MASIA
Entrepreneurship and Physics

Knowledge Exchange, Technology Transfer & Entrepreneurship

How can we help you?

- IP Identification, IP Protection, IP Commercialization
- Spin-off support

Events & Training?

- [SDG Workshop – Societal impact of my research](#) (in English) on June 21
- [Training FFG Spin-off Fellowship](#) (in English) on June 2
- [Entrepreneurship and Innovation](#) (in English) on September 26 and 27

Interested?

- Technology Transfer Office: techtransfer@univie.ac.at
- Entrepreneurship: entrepreneurship@univie.ac.at

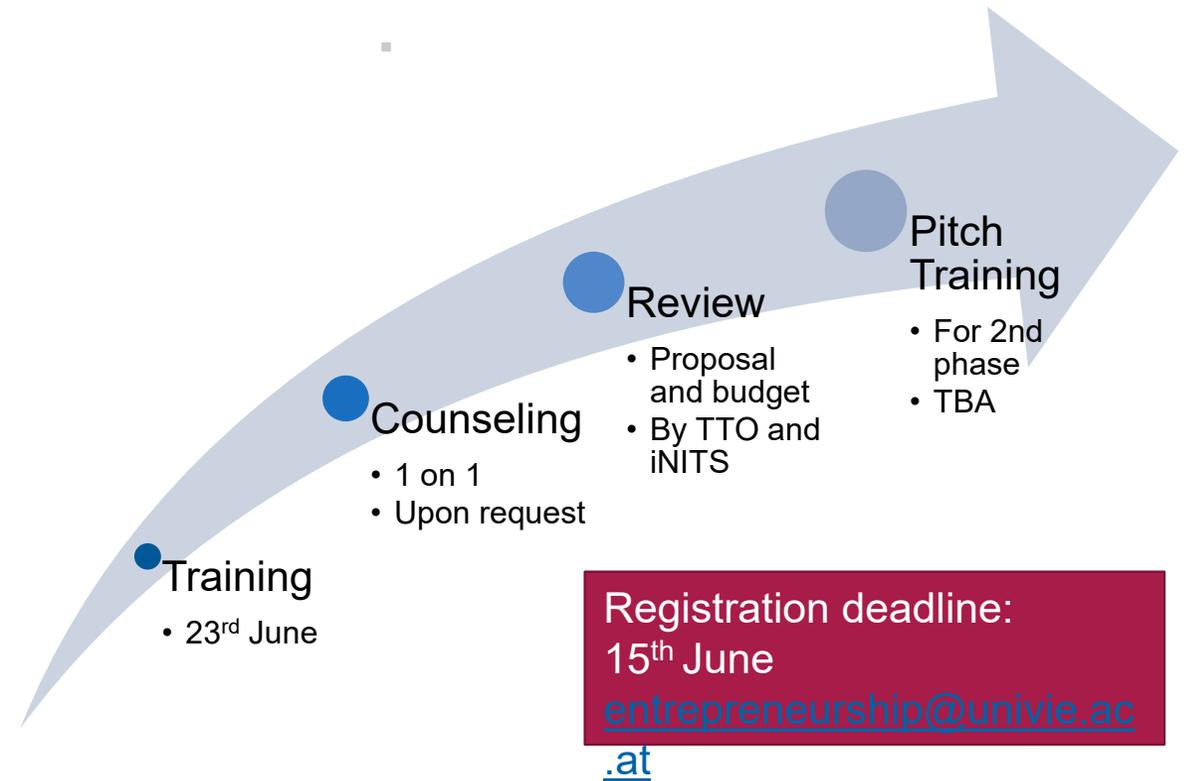

FFG Spin-off Fellowship

Aim

- Develop research results into marketable product/service at an early stage.
- The founding of the company must take place after the fellowship period.

Overview

- All disciplines
- Technologies/research results are property of the University.
- 12 to 18 months
- min. 100,000€ and max. 500,000€.
- Fellow(s) must devote themselves exclusively to the project. Employed by the University.

What is your opinion on this?

Our vision:

- Tailored and dedicated Postdoc support (Postdoc-Center)
 - Professional onboarding for everyone (esp. „3rd countries“) which comprises all 4 C’s of onboarding: Compliance, Clarity, Culture and Connectiveness
 - Needs-based mentoring, coaching and professional development opportunities (in addition to existing ones)
 - Career coaching for a broad range of academic and non-academic careers (in general postdocs will neither stay at UNIVIE, nor in academia at all)
- Vibrant and visible postdoc community building

Further needs and/or expectations?

Nicole Grunstra

Dept. Evolutionary Biology, Unit for Theoretical Biology, nicole.grunstra@gmail.com

Comparative & functional morphology of primate and mammalian pelvis yields insight into how functional demands related to obstetrics, locomotion, and pelvic floor support have led to evolutionary trade-offs in the human pelvis and why human childbirth is comparatively difficult.
